The New York City Department of Environmental Protection's (DEP) mission is to protect public health and the environment by supplying clean drinking water, collecting and treating wastewater, and reducing air, noise, and hazardous materials pollution. DEP is the largest combined municipal water and wastewater utility in the country, with nearly 6,000 employees. We deliver 1.1 billion gallons of high quality drinking water per day to 8.3 million New York City residents and more than 1 million people in Upstate New York, and we collect and treat an average of 1.3 billion gallons of wastewater per day.

The Bureau of Environmental Planning and Analysis is responsible for conducting environmental reviews for DEP in accordance with all applicable City Environmental Quality Review (CEQR) and State Environmental Quality Review (SEQR) regulations. In addition, this office provides technical assistance to other City agencies especially in the areas of air and noise quality and hazardous materials. The Office also provides technical assistance for the preservation of natural resources (wetlands remediation and development of natural landscaping plans) and conducts long range planning (population/employment, consumption and demand/flow) for the agency.

The DEP is seeking a mid-level Project Manager who will work in the Bureau of Environmental Planning and Analysis. With latitude for the exercise of independent judgment, the selected candidate will perform (air quality and noise) reviews and analyses. The selected candidate will review and analyze environmental impacts of proposed projects to assure their conformance with applicable local, state, and federal regulations and local environmental review guidance. In addition, the selected candidate will represent the Department at meetings with regulatory and environmental committees, private consultants and the public. He/she will be required to evaluate findings, prepare reports related to environmental planning and analysis, make recommendations, participate in the development of planning projects and programs, and monitor the performance of consultants.

The candidate should have experience with EPA emission and dispersion models such as MOVES, AERMOD and AERSCREEN.

**Minimum Qual Requirements**

1. For Assignment Level I (only physical, biological and environmental sciences and public health) A master's degree from an accredited college or university with a specialization in an appropriate field of physical, biological or environmental science or in public health.

To be appointed to Assignment Level II and above, candidates must have:

1. A doctorate degree from an accredited college or university with specialization in an appropriate field of physical, biological, environmental or social science and one year of full-time experience in a responsible supervisory, administrative or research capacity in the appropriate field of specialization; or
2. A master's degree from an accredited college or university with specialization in an appropriate field of physical, biological, environmental or social science and three years of responsible full-time research experience in the appropriate field of specialization; or
3. Education and/or experience which is equivalent to "1" or "2" above. However, all candidates must have at least a master's degree in an appropriate field of specialization and at least two years of experience described in "2" above. Two years as a City Research Scientist Level I can be substituted for the experience required in "1" and "2" above.

**NOTE:**

Probationary Period

Appointments to this position are subject to a minimum probationary period of one year.

**Preferred Skills**

Experience with air quality and noise analyses under New York City environmental review and permitting processes. Excellent writing, oral communication, analytical and research skills. Capable of adapting to different approaches as new standards and guidance from NYSDEC and EPA are released.

**Additional Information**

DEP is an equal opportunity employer with a strong commitment to the diversity of our organization and workforce. Your voluntary response to the NYCAPS on-line application section for referral information will assist us tremendously in our ability to track the success of our outreach and recruitment efforts. Please be sure to indicate your source of referral to this job.

"NOTE: This position is open to qualified persons with a disability who are eligible for the 55-a Program and also meet the education and experience requirements as listed in the job posting notice. Please indicate on your resume or cover letter that you would like to be considered for the position under the 55-a Program. This position is also open to non 55-a Program candidates who meet the education and experience requirements as listed in the job posting notice."

**To Apply**

To apply click "Apply Now"

**Residency Requirement**

New York City residency is generally required within 90 days of appointment. However, City Employees in certain titles who have worked for the City for 2 continuous years may also be eligible to reside in Nassau, Suffolk, Putnam, Westchester, Rockland, or Orange County. To determine if the residency requirement applies to you, please discuss with the agency representative at the time of interview.
