ALABAMA

FY 2012 BUDGET HIGHLIGHTS

\$ 44.5 million in new funding for environmental protection in Alabama. Highlights include:

Water

- \$ 3.1 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 3.4 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 0.9 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 17.0 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 12.0 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 4.9 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 2.0 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Alabama communities have received twelve Brownfields assessment cooperative agreements, one cooperative agreement to capitalize revolving loan funds, and four cleanup cooperative agreements.

Other Environmental Grants

- \$1.2 million.

ALASKA

FY 2012 BUDGET HIGHLIGHTS

\$ 47.9 million in new funding for environmental protection in Alaska. Highlights include:

Water

- \$ 1.9 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 1.4 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 2.5 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 9.1 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 9.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.
- \$10.0 million in the Alaska Native Villages for the construction of wastewater and drinking water facilities.

Air

- \$ 2.2 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.4 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Alaska communities have received three Brownfields assessment cooperative agreements, no cooperative agreements to capitalize revolving loan funds, and four cleanup cooperative agreements. One Showcase Community has been designated in Alaska.

Other Environmental Grants

- \$10.7 million.

AMERICAN SAMOA

FY 2012 BUDGET HIGHLIGHTS

\$ 11.3 million in new funding for environmental protection in American Samoa. Highlights include:

Water

- \$ 0.4 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 0.4 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 0.1 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 8.2 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 1.5 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 0.1 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.2 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, American Samoa communities have received seventeen Brownfields assessment cooperative agreements, no cooperative agreements to capitalize revolving loan funds, and no cleanup cooperative agreements.

Other Environmental Grants

- \$0.4 million.

ARIZONA

FY 2012 BUDGET HIGHLIGHTS

\$ 45.9 million in new funding for environmental protection in Arizona. Highlights include:

Water

- \$ 2.6 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 1.8 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 1.5 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 10.3 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 19.4 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 8.0 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 1.6 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Arizona communities have received no Brownfields assessment cooperative agreements, no cooperative agreements to capitalize revolving loan funds, and nine cleanup cooperative agreements. One Showcase Community has been designated in Arizona.

Other Environmental Grants

- \$0.7 million.

ARKANSAS

FY 2012 BUDGET HIGHLIGHTS

\$ 35.0 million in new funding for environmental protection in Arkansas. Highlights include:

Water

- \$ 3.1 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 2.0 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 1.0 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 9.9 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 14.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 2.3 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 1.3 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Arkansas communities have received three Brownfields assessment cooperative agreements, two cooperative agreements to capitalize revolving loan funds, and three cleanup cooperative agreements.

Other Environmental Grants

- \$0.7 million.

CALIFORNIA

FY 2012 BUDGET HIGHLIGHTS

\$ 268.2 million in new funding for environmental protection in California. Highlights include:

Water

- \$ 8.4 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 11.2 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 6.4 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 108.6 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 90.6 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 33.0 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 7.6 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, California communities have received seventy-eight Brownfields assessment cooperative agreements, twelve cooperative agreements to capitalize revolving loan funds, and fifty-nine cleanup cooperative agreements. Two Showcase Communities have been designated in California.

Other Environmental Grants

- \$2.4 million.

COLORADO

FY 2012 BUDGET HIGHLIGHTS

\$ 41.7 million in new funding for environmental protection in Colorado. Highlights include:

Water

- \$ 2.0 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 2.1 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 1.6 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 12.2 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 17.2 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 4.3 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 1.2 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Colorado communities have received five Brownfields assessment cooperative agreements, two cooperative agreements to capitalize revolving loan funds, and ten cleanup cooperative agreements. One Showcase Community has been designated in Colorado.

Other Environmental Grants

- \$1.1 million.

CONNECTICUT

FY 2012 BUDGET HIGHLIGHTS

\$ 42.4 million in new funding for environmental protection in Connecticut. Highlights include:

Water

- \$ 1.5 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 2.0 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 1.4 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 18.6 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 9.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 5.5 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 2.5 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Connecticut communities have received thirty-one Brownfields assessment cooperative agreements, six cooperative agreements to capitalize revolving loan funds, and thirty-eight cleanup cooperative agreements. One Showcase Community has been designated in Connecticut.

Other Environmental Grants

- \$1.2 million.

DELAWARE

FY 2012 BUDGET HIGHLIGHTS

\$ 23.4 million in new funding for environmental protection in Delaware. Highlights include:

Water

- \$ 1.1 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 1.2 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 0.6 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 7.5 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 9.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 1.9 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.6 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Delaware communities have received two Brownfields assessment cooperative agreements, no cooperative agreements to capitalize revolving loan funds, and one cleanup cooperative agreement.

Other Environmental Grants

- \$0.8 million.

DISTRICT OF COLUMBIA

FY 2012 BUDGET HIGHLIGHTS

\$ 22.0 million in new funding for environmental protection in District of Columbia. Highlights include:

Water

- \$ 1.0 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 1.1 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 0.4 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 7.5 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 9.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 1.6 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.3 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, District of Columbia communities have received thirty-five Brownfields assessment cooperative agreements, one cooperative agreement to capitalize revolving loan funds, and no cleanup cooperative agreements.

Other Environmental Grants

- \$0.4 million.

FLORIDA

FY 2012 BUDGET HIGHLIGHTS

\$ 110.4 million in new funding for environmental protection in Florida. Highlights include:

Water

- \$ 6.1 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 6.1 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 3.9 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 51.3 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 31.6 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 6.7 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 2.9 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Florida communities have received no Brownfields assessment cooperative agreements, two cooperative agreements to capitalize revolving loan funds, and eight cleanup cooperative agreements. One Showcase Community has been designated in Florida.

Other Environmental Grants

- \$1.8 million.

GEORGIA

FY 2012 BUDGET HIGHLIGHTS

\$ 69.9 million in new funding for environmental protection in Georgia. Highlights include:

Water

- \$ 3.7 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 4.0 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 2.4 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 25.7 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 22.9 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 7.5 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 2.4 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Georgia communities have received nineteen Brownfields assessment cooperative agreements, one cooperative agreement to capitalize revolving loan funds, and six cleanup cooperative agreements.

Other Environmental Grants

- \$1.3 million.

GUAM

FY 2012 BUDGET HIGHLIGHTS

\$ 11.9 million in new funding for environmental protection in Guam. Highlights include:

Water

- \$ 0.4 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 1.0 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 0.1 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 6.0 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 3.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 0.2 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.0 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Guam communities have received one Brownfields assessment cooperative agreement, no cooperative agreements to capitalize revolving loan funds, and one cleanup cooperative agreement.

Other Environmental Grants

- \$0.5 million.

HAWAII

FY 2012 BUDGET HIGHLIGHTS

\$ 27.5 million in new funding for environmental protection in Hawaii. Highlights include:

Water

- \$ 1.2 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 2.0 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 0.5 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 11.8 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 9.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 1.1 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.4 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Hawaii communities have received four Brownfields assessment cooperative agreements, no cooperative agreements to capitalize revolving loan funds, and two cleanup cooperative agreements.

Other Environmental Grants

- \$0.8 million.

IDAHO

FY 2012 BUDGET HIGHLIGHTS

\$ 25.3 million in new funding for environmental protection in Idaho. Highlights include:

Water

- \$ 1.9 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 1.6 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 1.2 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 7.5 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 9.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 2.6 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.2 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Idaho communities have received eight Brownfields assessment cooperative agreements, one cooperative agreement to capitalize revolving loan funds, and four cleanup cooperative agreements.

Other Environmental Grants

- \$0.6 million.

ILLINOIS

FY 2012 BUDGET HIGHLIGHTS

\$ 139.0 million in new funding for environmental protection in Illinois. Highlights include:

Water

- \$ 6.5 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 5.0 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 3.2 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 68.7 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 36.5 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 12.0 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 4.9 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Illinois communities have received forty-two Brownfields assessment cooperative agreements, four cooperative agreements to capitalize revolving loan funds, and twenty-three cleanup cooperative agreements. Two Showcase Communities have been designated in Illinois.

Other Environmental Grants

- \$2.2 million.

INDIANA

FY 2012 BUDGET HIGHLIGHTS

\$ 71.5 million in new funding for environmental protection in Indiana. Highlights include:

Water

- \$ 3.5 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 2.7 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 2.1 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 36.6 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 16.1 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 6.4 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 2.8 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Indiana communities have received twenty-five Brownfields assessment cooperative agreements, three cooperative agreements to capitalize revolving loan funds, and nineteen cleanup cooperative agreements.

Other Environmental Grants

- \$1.3 million.

IOWA

FY 2012 BUDGET HIGHLIGHTS

\$ 50.5 million in new funding for environmental protection in Iowa. Highlights include:

Water

- \$ 3.6 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 2.8 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 1.5 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 20.6 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 16.5 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 2.9 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 1.5 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Iowa communities have received thirty-three Brownfields assessment cooperative agreements, three cooperative agreements to capitalize revolving loan funds, and fourteen cleanup cooperative agreements. One Showcase Community has been designated in Iowa.

Other Environmental Grants

- \$1.1 million.

KANSAS

FY 2012 BUDGET HIGHLIGHTS

\$ 36.4 million in new funding for environmental protection in Kansas. Highlights include:

Water

- \$ 2.9 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 2.4 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 1.2 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 13.7 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 11.8 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 2.1 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 1.1 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Kansas communities have received eight Brownfields assessment cooperative agreements, one cooperative agreement to capitalize revolving loan funds, and one cleanup cooperative agreement. One Showcase Community has been designated in Kansas.

Other Environmental Grants

- \$1.2 million.

KENTUCKY

FY 2012 BUDGET HIGHLIGHTS

\$ 46.4 million in new funding for environmental protection in Kentucky. Highlights include:

Water

- \$ 2.7 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 1.9 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 0.8 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 19.3 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 14.0 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 4.6 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 1.8 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Kentucky communities have received twelve Brownfields assessment cooperative agreements, one cooperative agreement to capitalize revolving loan funds, and five cleanup cooperative agreements.

Other Environmental Grants

- \$1.3 million.

LOUISIANA

FY 2012 BUDGET HIGHLIGHTS

\$ 52.8 million in new funding for environmental protection in Louisiana. Highlights include:

Water

- \$ 3.8 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 4.7 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 1.4 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 16.7 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 18.3 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 3.9 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 2.7 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Louisiana communities have received twenty Brownfields assessment cooperative agreements, three cooperative agreements to capitalize revolving loan funds, and seventeen cleanup cooperative agreements.

Other Environmental Grants

- \$1.3 million.

MAINE

FY 2012 BUDGET HIGHLIGHTS

\$ 30.2 million in new funding for environmental protection in Maine. Highlights include:

Water

- \$ 1.8 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 2.1 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 1.0 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 11.8 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 9.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 2.2 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.5 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Maine communities have received thirty-one Brownfields assessment cooperative agreements, seven cooperative agreements to capitalize revolving loan funds, and twenty-one cleanup cooperative agreements.

Other Environmental Grants

- \$1.1 million.

MARYLAND

FY 2012 BUDGET HIGHLIGHTS

\$ 65.5 million in new funding for environmental protection in Maryland. Highlights include:

Water

- \$ 2.1 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 2.6 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 1.6 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 36.7 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 15.0 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 4.9 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 1.7 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Maryland communities have received four Brownfields assessment cooperative agreements, one cooperative agreement to capitalize revolving loan funds, and four cleanup cooperative agreements. One Showcase Community has been designated in Maryland.

Other Environmental Grants

- \$0.9 million.

MASSACHUSETTS

FY 2012 BUDGET HIGHLIGHTS

\$ 86.4 million in new funding for environmental protection in Massachusetts. Highlights include:

Water

- \$ 2.1 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 3.1 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 1.2 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 51.6 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 18.1 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 7.7 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 1.6 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Massachusetts communities have received sixty Brownfields assessment cooperative agreements, five cooperative agreements to capitalize revolving loan funds, and fifty-nine cleanup cooperative agreements. Three Showcase Communities have been designated in Massachusetts.

Other Environmental Grants

- \$1.0 million.

MICHIGAN

FY 2012 BUDGET HIGHLIGHTS

\$ 125.0 million in new funding for environmental protection in Michigan. Highlights include:

Water

- \$ 4.6 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 8.3 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 4.5 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 65.3 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 29.4 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 7.7 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 3.7 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Michigan communities have received one hundred thirteen Brownfields assessment cooperative agreements, twenty-two cooperative agreements to capitalize revolving loan funds, and sixteen cleanup cooperative agreements.

Other Environmental Grants

- \$1.5 million.

MINNESOTA

FY 2012 BUDGET HIGHLIGHTS

\$ 63.6 million in new funding for environmental protection in Minnesota. Highlights include:

Water

- \$ 5.4 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 4.3 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 2.6 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 27.9 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 16.2 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 3.9 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 1.6 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Minnesota communities have received twenty-two Brownfields assessment cooperative agreements, ten cooperative agreements to capitalize revolving loan funds, and fourteen cleanup cooperative agreements. One Showcase Community has been designated in Minnesota.

Other Environmental Grants

- \$1.7 million.

MISSISSIPPI

FY 2012 BUDGET HIGHLIGHTS

\$ 36.3 million in new funding for environmental protection in Mississippi. Highlights include:

Water

- \$ 3.0 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 3.8 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 1.3 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 13.7 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 10.1 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 2.1 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 1.2 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Mississippi communities have received four Brownfields assessment cooperative agreements, no cooperative agreements to capitalize revolving loan funds, and no cleanup cooperative agreements. One Showcase Community has been designated in Mississippi.

Other Environmental Grants

- \$1.1 million.

MISSOURI

FY 2012 BUDGET HIGHLIGHTS

\$ 78.4 million in new funding for environmental protection in Missouri. Highlights include:

Water

- \$ 3.6 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 3.3 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 2.1 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 42.1 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 18.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 4.7 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 2.8 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Missouri communities have received eighteen Brownfields assessment cooperative agreements, three cooperative agreements to capitalize revolving loan funds, and fourteen cleanup cooperative agreements. Two Showcase Communities have been designated in Missouri.

Other Environmental Grants

- \$1.1 million.

MONTANA

FY 2012 BUDGET HIGHLIGHTS

\$ 26.2 million in new funding for environmental protection in Montana. Highlights include:

Water

- \$ 2.1 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 2.3 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 1.3 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 7.5 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 9.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 2.3 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.4 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Montana communities have received eleven Brownfields assessment cooperative agreements, four cooperative agreements to capitalize revolving loan funds, and eight cleanup cooperative agreements.

Other Environmental Grants

- \$0.6 million.

NEBRASKA

FY 2012 BUDGET HIGHLIGHTS

\$ 27.0 million in new funding for environmental protection in Nebraska. Highlights include:

Water

- \$ 2.9 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 2.3 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 1.0 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 7.8 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 9.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 1.6 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.8 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Nebraska communities have received four Brownfields assessment cooperative agreements, no cooperative agreements to capitalize revolving loan funds, and two cleanup cooperative agreements.

Other Environmental Grants

- \$0.9 million.

NEVADA

FY 2012 BUDGET HIGHLIGHTS

\$ 24.9 million in new funding for environmental protection in Nevada. Highlights include:

Water

- \$ 1.3 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 0.9 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 0.8 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 7.5 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 9.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 3.3 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.8 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Nevada communities have received ten Brownfields assessment cooperative agreements, no cooperative agreements to capitalize revolving loan funds, and one cleanup cooperative agreement.

Other Environmental Grants

- \$0.6 million.

NEW HAMPSHIRE

FY 2012 BUDGET HIGHLIGHTS

\$ 32.2 million in new funding for environmental protection in New Hampshire. Highlights include:

Water

- \$ 1.2 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 1.1 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 1.2 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 15.2 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 9.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 2.6 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.4 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, New Hampshire communities have received twelve Brownfields assessment cooperative agreements, one cooperative agreement to capitalize revolving loan funds, and four cleanup cooperative agreements.

Other Environmental Grants

- \$0.8 million.

NEW JERSEY

FY 2012 BUDGET HIGHLIGHTS

\$ 111.9 million in new funding for environmental protection in New Jersey. Highlights include:

Water

- \$ 2.6 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 3.5 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 2.1 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 62.1 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 20.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 15.6 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 4.1 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, New Jersey communities have received twenty-four Brownfields assessment cooperative agreements, two cooperative agreements to capitalize revolving loan funds, and thirteen cleanup cooperative agreements. One Showcase Community has been designated in New Jersey.

Other Environmental Grants

- \$1.2 million.

NEW MEXICO

FY 2012 BUDGET HIGHLIGHTS

\$ 27.8 million in new funding for environmental protection in New Mexico. Highlights include:

Water

- \$ 1.9 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 1.5 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 1.1 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 7.5 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 9.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 4.2 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 1.0 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, New Mexico communities have received three Brownfields assessment cooperative agreements, one cooperative agreement to capitalize revolving loan funds, and two cleanup cooperative agreements.

Other Environmental Grants

- \$0.9 million.

NEW YORK

FY 2012 BUDGET HIGHLIGHTS

\$ 257.4 million in new funding for environmental protection in New York. Highlights include:

Water

- \$ 5.3 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 7.2 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 4.9 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 167.7 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 63.8 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 1.8 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 5.4 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, New York communities have received thirty-four Brownfields assessment cooperative agreements, three cooperative agreements to capitalize revolving loan funds, and twenty cleanup cooperative agreements. Two Showcase Communities have been designated in New York.

Other Environmental Grants

- \$1.3 million.

NORTH CAROLINA

FY 2012 BUDGET HIGHLIGHTS

\$ 76.0 million in new funding for environmental protection in North Carolina. Highlights include:

Water

- \$ 3.7 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 6.6 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 3.3 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 27.4 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 25.4 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 5.8 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 2.5 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, North Carolina communities have received thirty-two Brownfields assessment cooperative agreements, two cooperative agreements to capitalize revolving loan funds, and seven cleanup cooperative agreements.

Other Environmental Grants

- \$1.3 million.

NORTH DAKOTA

FY 2012 BUDGET HIGHLIGHTS

\$ 25.9 million in new funding for environmental protection in North Dakota. Highlights include:

Water

- \$ 3.8 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 1.7 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 0.7 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 7.5 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 9.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 1.4 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.3 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, North Dakota communities have received one Brownfields assessment cooperative agreement, no cooperative agreements to capitalize revolving loan funds, and three cleanup cooperative agreements.

Other Environmental Grants

- \$0.8 million.

NORTHERN MARIANA ISLANDS

FY 2012 BUDGET HIGHLIGHTS

\$ 9.7 million in new funding for environmental protection in Northern Mariana Islands. Highlights include:

Water

- \$ 0.4 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 0.4 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 0.2 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 3.8 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 4.4 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 0.1 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.0 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Northern Mariana Islands communities have received seventy-one Brownfields assessment cooperative agreements, no cooperative agreements to capitalize revolving loan funds, and no cleanup cooperative agreements.

Other Environmental Grants

- \$0.4 million.

OHIO

FY 2012 BUDGET HIGHLIGHTS

\$ 147.7 million in new funding for environmental protection in Ohio. Highlights include:

Water

- \$ 4.8 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 4.9 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 2.9 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 85.5 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 31.1 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 10.0 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 7.0 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Ohio communities have received no Brownfields assessment cooperative agreements, eight cooperative agreements to capitalize revolving loan funds, and eighteen cleanup cooperative agreements.

Other Environmental Grants

- \$1.5 million.

OKLAHOMA

FY 2012 BUDGET HIGHLIGHTS

\$ 35.0 million in new funding for environmental protection in Oklahoma. Highlights include:

Water

- \$ 2.5 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 2.4 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 1.4 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 12.3 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 12.0 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 2.3 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.9 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Oklahoma communities have received nine Brownfields assessment cooperative agreements, three cooperative agreements to capitalize revolving loan funds, and eight cleanup cooperative agreements.

Other Environmental Grants

- \$1.2 million.

OREGON

FY 2012 BUDGET HIGHLIGHTS

\$ 40.7 million in new funding for environmental protection in Oregon. Highlights include:

Water

- \$ 2.2 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 2.7 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 1.7 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 17.2 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 9.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 5.5 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.8 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Oregon communities have received fourteen Brownfields assessment cooperative agreements, one cooperative agreement to capitalize revolving loan funds, and fifteen cleanup cooperative agreements. One Showcase Community has been designated in Oregon.

Other Environmental Grants

- \$0.9 million.

PENNSYLVANIA

FY 2012 BUDGET HIGHLIGHTS

\$ 122.8 million in new funding for environmental protection in Pennsylvania. Highlights include:

Water

- \$ 4.6 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 5.7 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 4.4 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 60.2 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 28.4 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 12.7 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 5.3 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Pennsylvania communities have received fifty Brownfields assessment cooperative agreements, eight cooperative agreements to capitalize revolving loan funds, and eighteen cleanup cooperative agreements.

Other Environmental Grants

- \$1.5 million.

PUERTO RICO

FY 2012 BUDGET HIGHLIGHTS

\$ 34.9 million in new funding for environmental protection in Puerto Rico. Highlights include:

Water

- \$ 0.9 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 2.1 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 0.8 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 19.8 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 9.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 0.0 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.8 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Puerto Rico communities have received thirteen Brownfields assessment cooperative agreements, no cooperative agreements to capitalize revolving loan funds, and no cleanup cooperative agreements.

Other Environmental Grants

- \$0.8 million.

RHODE ISLAND

FY 2012 BUDGET HIGHLIGHTS

\$ 26.7 million in new funding for environmental protection in Rhode Island. Highlights include:

Water

- \$ 1.1 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 1.4 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 0.5 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 10.2 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 9.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 2.6 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.4 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Rhode Island communities have received nine Brownfields assessment cooperative agreements, two cooperative agreements to capitalize revolving loan funds, and twenty cleanup cooperative agreements. One Showcase Community has been designated in Rhode Island.

Other Environmental Grants

- \$0.8 million.

SOUTH CAROLINA

FY 2012 BUDGET HIGHLIGHTS

\$ 37.4 million in new funding for environmental protection in South Carolina. Highlights include:

Water

- \$ 2.5 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 2.6 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 1.1 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 15.6 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 9.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 2.9 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 2.1 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, South Carolina communities have received twenty-six Brownfields assessment cooperative agreements, no cooperative agreements to capitalize revolving loan funds, and eleven cleanup cooperative agreements.

Other Environmental Grants

- \$0.9 million.

SOUTH DAKOTA

FY 2012 BUDGET HIGHLIGHTS

\$ 24.2 million in new funding for environmental protection in South Dakota. Highlights include:

Water

- \$ 2.6 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 1.5 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 0.8 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 7.5 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 9.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 1.3 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.3 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, South Dakota communities have received three Brownfields assessment cooperative agreements, no cooperative agreements to capitalize revolving loan funds, and five cleanup cooperative agreements.

Other Environmental Grants

- \$0.5 million.

TENNESSEE

FY 2012 BUDGET HIGHLIGHTS

\$ 46.7 million in new funding for environmental protection in Tennessee. Highlights include:

Water

- \$ 2.5 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 2.4 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 1.0 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 22.1 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 10.8 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 4.8 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 2.1 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Tennessee communities have received twenty Brownfields assessment cooperative agreements, two cooperative agreements to capitalize revolving loan funds, and seven cleanup cooperative agreements.

Other Environmental Grants

- \$1.0 million.

TEXAS

FY 2012 BUDGET HIGHLIGHTS

\$ 181.3 million in new funding for environmental protection in Texas. Highlights include:

Water

- \$ 7.4 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 8.9 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 6.6 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 69.4 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 61.5 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 15.7 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 9.1 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Texas communities have received twenty-seven Brownfields assessment cooperative agreements, two cooperative agreements to capitalize revolving loan funds, and eleven cleanup cooperative agreements. Two Showcase Communities have been designated in Texas.

Other Environmental Grants

- \$2.7 million.

UTAH

FY 2012 BUDGET HIGHLIGHTS

\$ 26.9 million in new funding for environmental protection in Utah. Highlights include:

Water

- \$ 1.4 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 1.6 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 0.9 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 8.0 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 9.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 3.9 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.7 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Utah communities have received five Brownfields assessment cooperative agreements, no cooperative agreements to capitalize revolving loan funds, and no cleanup cooperative agreements. One Showcase Community has been designated in Utah.

Other Environmental Grants

- \$0.7 million.

VERMONT

FY 2012 BUDGET HIGHLIGHTS

\$ 22.6 million in new funding for environmental protection in Vermont. Highlights include:

Water

- \$ 1.2 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 0.8 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 0.8 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 7.5 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 9.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 1.6 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.4 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Vermont communities have received forty-one Brownfields assessment cooperative agreements, three cooperative agreements to capitalize revolving loan funds, and three cleanup cooperative agreements.

Other Environmental Grants

- \$0.6 million.

VIRGIN ISLANDS, U.S.

FY 2012 BUDGET HIGHLIGHTS

\$ 12.4 million in new funding for environmental protection in Virgin Islands, U.S.. Highlights include:

Water

- \$ 0.4 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 1.0 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 0.2 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 4.8 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 5.0 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 0.5 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.0 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Virgin Islands, U.S. communities have received nine Brownfields assessment cooperative agreements, no cooperative agreements to capitalize revolving loan funds, and no cleanup cooperative agreements.

Other Environmental Grants

- \$0.5 million.

VIRGINIA

FY 2012 BUDGET HIGHLIGHTS

\$ 63.1 million in new funding for environmental protection in Virginia. Highlights include:

Water

- \$ 3.1 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 3.2 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 2.2 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 31.1 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 16.4 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 4.3 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 1.9 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Virginia communities have received no Brownfields assessment cooperative agreements, one cooperative agreement to capitalize revolving loan funds, and three cleanup cooperative agreements. One Showcase Community has been designated in Virginia.

Other Environmental Grants

- \$0.9 million.

WASHINGTON

FY 2012 BUDGET HIGHLIGHTS

\$ 70.8 million in new funding for environmental protection in Washington. Highlights include:

Water

- \$ 3.0 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 5.3 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 2.8 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 26.4 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 24.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 5.8 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 1.8 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Washington communities have received twenty-four Brownfields assessment cooperative agreements, one cooperative agreement to capitalize revolving loan funds, and twenty-two cleanup cooperative agreements. One Showcase Community has been designated in Washington.

Other Environmental Grants

- \$1.0 million.

WEST VIRGINIA

FY 2012 BUDGET HIGHLIGHTS

\$ 42.7 million in new funding for environmental protection in West Virginia. Highlights include:

Water

- \$ 1.7 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 1.8 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 0.8 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 23.7 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 9.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 2.8 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 1.5 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, West Virginia communities have received twenty-two Brownfields assessment cooperative agreements, no cooperative agreements to capitalize revolving loan funds, and six cleanup cooperative agreements.

Other Environmental Grants

- \$0.7 million.

WISCONSIN

FY 2012 BUDGET HIGHLIGHTS

\$ 78.0 million in new funding for environmental protection in Wisconsin. Highlights include:

Water

- \$ 4.1 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 6.1 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 3.6 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 41.1 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 16.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 5.5 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.0 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Wisconsin communities have received thirty-one Brownfields assessment cooperative agreements, fourteen cooperative agreements to capitalize revolving loan funds, and seventeen cleanup cooperative agreements. One Showcase Community has been designated in Wisconsin.

Other Environmental Grants

- \$0.9 million.

WYOMING

FY 2012 BUDGET HIGHLIGHTS

\$ 23.1 million in new funding for environmental protection in Wyoming. Highlights include:

Water

- \$ 1.5 million in Clean Water Act Sec. 319 funding to address non-Point Source pollution.
- \$ 0.9 million in Clean Water Act Sec. 106 funding to address water pollution control.
- \$ 0.8 million in Public Water Systems Supervision funding to help monitor drinking water quality and enforce health standards.
- \$ 7.5 million in the Clean Water State Revolving Fund to provide low interest loans to help finance wastewater treatment facilities and other water quality projects.
- \$ 9.7 million in the Drinking Water State Revolving Fund to provide low-interest loans to municipalities to build, improve, and prevent pollution in drinking water systems.

Air

- \$ 1.6 million in Air Pollution Control Program grants to assist in attaining new air quality standards.

Hazardous Waste

- \$ 0.4 million in Resource Conservation and Recovery Act funding to manage the generation, transportation, and disposal of hazardous waste.

Brownfields

- The FY 2012 President's Budget includes \$49.5 million in total to establish and enhance state and tribal response programs.
- The FY 2012 President's Budget includes \$99.0 million in total for municipalities and states for site assessment, to capitalize revolving loan funds, and to carry out cleanup activities at Brownfields sites. These funds are available to eligible entities in EPA's annual Brownfields Assessment, Revolving Loan Fund, and Cleanup grant competition. Since the inception of the program, Wyoming communities have received no Brownfields assessment cooperative agreements, no cooperative agreements to capitalize revolving loan funds, and one cleanup cooperative agreement.

Other Environmental Grants

- \$0.7 million.
