

Upcoming Meetings around Sensors and Communicating Air Quality

- June 2018 Workshop Summary – now available
 - <https://www.sciencedirect.com/science/article/pii/S2590162119300346?via%3Dihub>
 - Focus is on performance target considerations for PM_{2.5} and O₃
- Air Sensors II Workshop: Deliberating Performance Targets for Air Quality Sensors - upcoming
 - Date: July 16, 2019
 - Location: Sheraton Imperial Hotel, RTP, NC
 - This year, the workshop will focus on the remaining criteria pollutants: CO, NO₂, SO₂, and PM₁₀

- Additionally, EPA is coordinating a small-scale meeting with key companies providing air quality information via their apps and websites
- Scheduled for ~June 11-13th in RTP, NC (draft agenda forthcoming)
- Goals are to allow stakeholders to share:
 - Air quality product inputs (e.g sensor data, modeled data, or a data fusion product that includes satellite, regulatory, and/or sensor data);
 - Questions for other stakeholders in the room; and
 - Improve the current and future state of AQ info to the public
- EPA will be reaching out to a subset of states interested in the issue (need to keep the meeting balanced between government and private sector attendees)
- EPA is exploring ways to expand the conversation to broader audiences
