

EPA'S NEW LEARNING MANAGEMENT SYSTEM: HOW IT WILL HELP STATE AND LOCAL TRAINING COORDINATORS

Russell Goff, EM-Assist

Air Pollution Training Institute | APTI

APTI LMS OBJECTIVE

- Provide an enterprise infrastructure to facilitate educational materials and training products intended to build expertise and capability of state, tribal, and local government environmental personnel who implement the provisions of the Clean Air Act.

APTI LMS FUNCTION

- Implement a centralized LMS for APTI in support of CAA Training
- Host APTI courses
- Manage student training records
- Maintain schedule of training events and courses
- Facilitate student registration for ILT courses
- Support self-instructional eLearning courses
- Issue course certificates and maintain transcript records
- Capture course and instructor evaluations
- Custom and ad hoc reporting to evaluate course and learner statistics

APTI LMS USER COMMUNITY

- OAQPS – Innovative Programs & Outreach
- Multi-jurisdictional Organizations (MJOs)
 - CenSARA
 - MARAMA
 - Metro 4/SESARM
 - NESCAUM
 - National Council on Aging (NCOA)
 - WESTAR

Welcome to the Learning Management System - "Review" Site

This is the future home of the APTI Learning Management System and Learning Portal. This site is under construction.

The Air Pollution Training Institute (APTI), primarily provides technical air pollution training to state, tribal, and local air pollution professionals, although others may benefit from this training. APTI's goal is to facilitate professional development by enhancing the skills necessary to understand and implement environmental programs and policies.

The curriculum is divided into subject areas, for which four delivery formats are available:

- Instructor Led Training,
- Webinars,
- On-demand training, and
- Self Instructional Courses.

APTI also provides special course and workshop offerings that may require additional registration.
