**PETITION FOR REVIEW**

Pursuant to Rule 15 of the Federal Rules of Appellate Procedure and section 307(b) of the Clean Air Act, 42 U.S.C. § 7607(b), the American Petroleum Institute, the American Fuel & Petrochemical Manufacturers, the National Association of Manufacturers, and the National Oilseed Processors Association hereby petition the Court for review of a final action of respondents—the U.S. Environmental Protection Agency, and Lisa P. Jackson, Administrator, U.S. Environmental Protection Agency—entitled “Prevention of Significant Deterioration and Title V Greenhouse Gas Tailoring Rule Step 3 and GHG

Plantwide Applicability Limits,” which was published in the Federal Register on July 12, 2012. See 77 Fed. Reg. 41,051 (July 12, 2012). This Court has jurisdiction and is a proper venue for this action pursuant to 42 U.S.C. § 7607(b)(1).

**RULE 26.1 STATEMENT**

Pursuant to Federal Rule of Appellate Procedure 26.1 and D.C. Circuit Rule 26.1, Petitioners make the following Disclosures:

The American Petroleum Institute (“API”) states that it is a national trade association representing all aspects of America’s oil and natural gas industry. API has over 500 members, from the largest major oil company to the smallest of independents, from all segments of the industry, including producers, refiners, suppliers, pipeline operators and marine transporters, as well as service and supply

companies that support all segments of industry. API has no parent company, and no publicly held company has a 10% or greater ownership interest in API.

The American Fuel & Petrochemical Manufacturers (“AFPM”) states that it is a national trade association whose members comprise more than 450 companies, including virtually all United States refiners and petrochemical manufacturers. AFPM’s members supply consumers with a wide variety of products and services that are used daily in homes and businesses. These products include gasoline, diesel fuel, home heating oil, jet fuel, asphalt products, and the chemicals that serve as “building blocks” in making plastics, clothing, medicine, and computers. AFPM has no parent company, and no publicly held company has a 10% or greater ownership interest in AFPM.

The National Association of Manufacturers (“NAM”) states that it is the nation’s largest industrial trade association, representing small and large manufacturers in every industrial sector and in all 50 states. The NAM’s mission is to enhance the competitiveness of manufacturers by shaping a legislative and regulatory environment conducive to U.S. economic growth and to increase understanding among policymakers, the media and the general public about the vital role of manufacturing to America’s economic future and living standards. The NAM has no parent company, and no publicly held company has a 10% or greater ownership interest in the NAM.

The National Oilseed Processors Association (“NOPA”) states that it is a national trade association that represents 12 companies engaged in the production of vegetable meals and oils from oilseeds, including soybeans. NOPA’s member companies process more than 1.6 billion bushels of oilseeds annually at 61 plants located throughout the country, including 56 plants that process soybeans. NOPA has no parent company, and no publicly held company has a 10% or greater ownership interest in NOPA.
