Opening Date	April 26, 2024
Closing Date	Continuous, with the first screening of applicants on May 27, 2024
Location	Springfield, Oregon
Position	One full-time Air Quality Permit Writer (Environmental Engineer)

To Apply

Please email your application (downloadable [here](#)), resume, and cover letter to Jobs@lrapa.org.

The Position

The Environmental Engineer (EE) serves as an air quality permit writer primarily developing air quality permits for industrial sources of air contaminants which are regulated by the Agency.

The EE is an entry to mid-level position working under the direction of the LRAPA Operations Manager. The successful applicant will conduct reviews of plans and permit documents for various industrial sources located in Lane County, Oregon and draft permits for issuance that comply with federal, state, and local air quality regulations. As a small, local air quality agency, the successful candidate will be involved with a wide variety of work at LRAPA including involvement with criteria pollutants, air toxics and greenhouse gas regulations.

Typical permit writer duties of the position include, but are not limited to:

- Using understanding of industrial processes and equipment, the permit writer is responsible for development of Air Contaminant Discharge Permit and Title V air quality permits for simple to moderately complex sources in assigned source categories.
- The permit writer is primary contact with industry management and environmental operations personnel for matters relating to permit requirements and provisions, air pollution control equipment requirement, and emission limits at plant sites.

Minimum required qualifications

Bachelor's degree in environmental, chemical, mechanical, or civil engineering. Two (2) or more years of experience in the field or equivalent education and experience which provides the knowledge, skills, and ability.

Preferred experience

Registration in the State of Oregon as a Professional Engineer (PE) or eligible to take the Fundamentals of Engineering (FE) exam and apply for registration in Oregon is desirable, but not required.

Knowledge, Skills, and Abilities

The successful candidate will have skills to convey complex or technical information to facilities and public; knowledge of a variety of industrial and commercial processes and appropriate air pollution control technologies; computer skills including the use of databases and Microsoft Office 365; ability to interpret and apply laws, procedures, and regulations pertaining to the source of air contaminants being reviewed; excellent organizational and personal skills.

- Knowledge of a variety of industrial and commercial processes, and appropriate air pollution control technologies.
- Knowledge of principles and practices of engineering as they apply to industrial processes and control systems
- Knowledge of designs of a variety of air contaminant control systems.
- Strong conflict resolution and negotiation skills to effectively handle challenging situations. Ability to interpret and apply laws, procedures, and regulations pertinent to the source of air contaminants being reviewed.
- Proficiency in utilizing Generative AI tools to enhance research, analysis, and communication skills is highly desirable.
- Ability to gather, assemble, consolidate, and analyze facts and draw logical conclusions.
- Ability to determine sufficiency, reliability and relevance of the data collected.
- Ability to investigate, gather evidence, and provide expert testimony in contested cases.
- Ability to explain applicable rules and regulations to the public and facilities.
- Preference may be given to bilingual candidates, especially in Spanish.

Working Conditions

Work is performed in the Agency's offices, located in Springfield, Oregon. May include travel to other agencies or grant sites, including but not limited to Eugene, Oakridge, Cottage Grove, and unincorporated areas of Lane County. Work and training opportunities may require travel within the State of Oregon. Work is performed in an office environment.

Compensation

- Placement within the range will be based upon the selected candidate's experience and qualifications.
 - \$5,563 - \$8,258 per month
 - Comprehensive benefit package which includes:
 - Retirement plan administered by Oregon Public Employees' Retirement System (PERS)
 - Deferred compensation plan (457 plan)
 - 10 paid holidays: New Year's Day, Martin Luther King Day, Presidents' Day, Memorial Day, Juneteenth, Independence Day, Labor Day, Veteran's Day, Thanksgiving Day, Day after Thanksgiving, and Christmas Day.
 - Personal Time Off (PTO) starting at 28 days/year
 - Health insurance program (medical, dental, vision) including a Flexible Spending Account.
 - Agency provided Long-term disability insurance program
 - Agency provided life insurance policy
