

# **Portland Air Toxics Solutions Environmental Justice Analysis**

**NACAA Fall Membership Meeting  
October 1, 2012**

**Sarah Armitage  
Aida Biberic  
Oregon Department of Environmental Quality**

# Portland Air Toxics Solutions

A geographic approach to understanding  
and reducing air toxics

**Five priority categories for  
reduction:**

- Residential wood burning
- Cars and trucks
- Heavy duty vehicles
- Construction equipment
- Industrial metals facilities

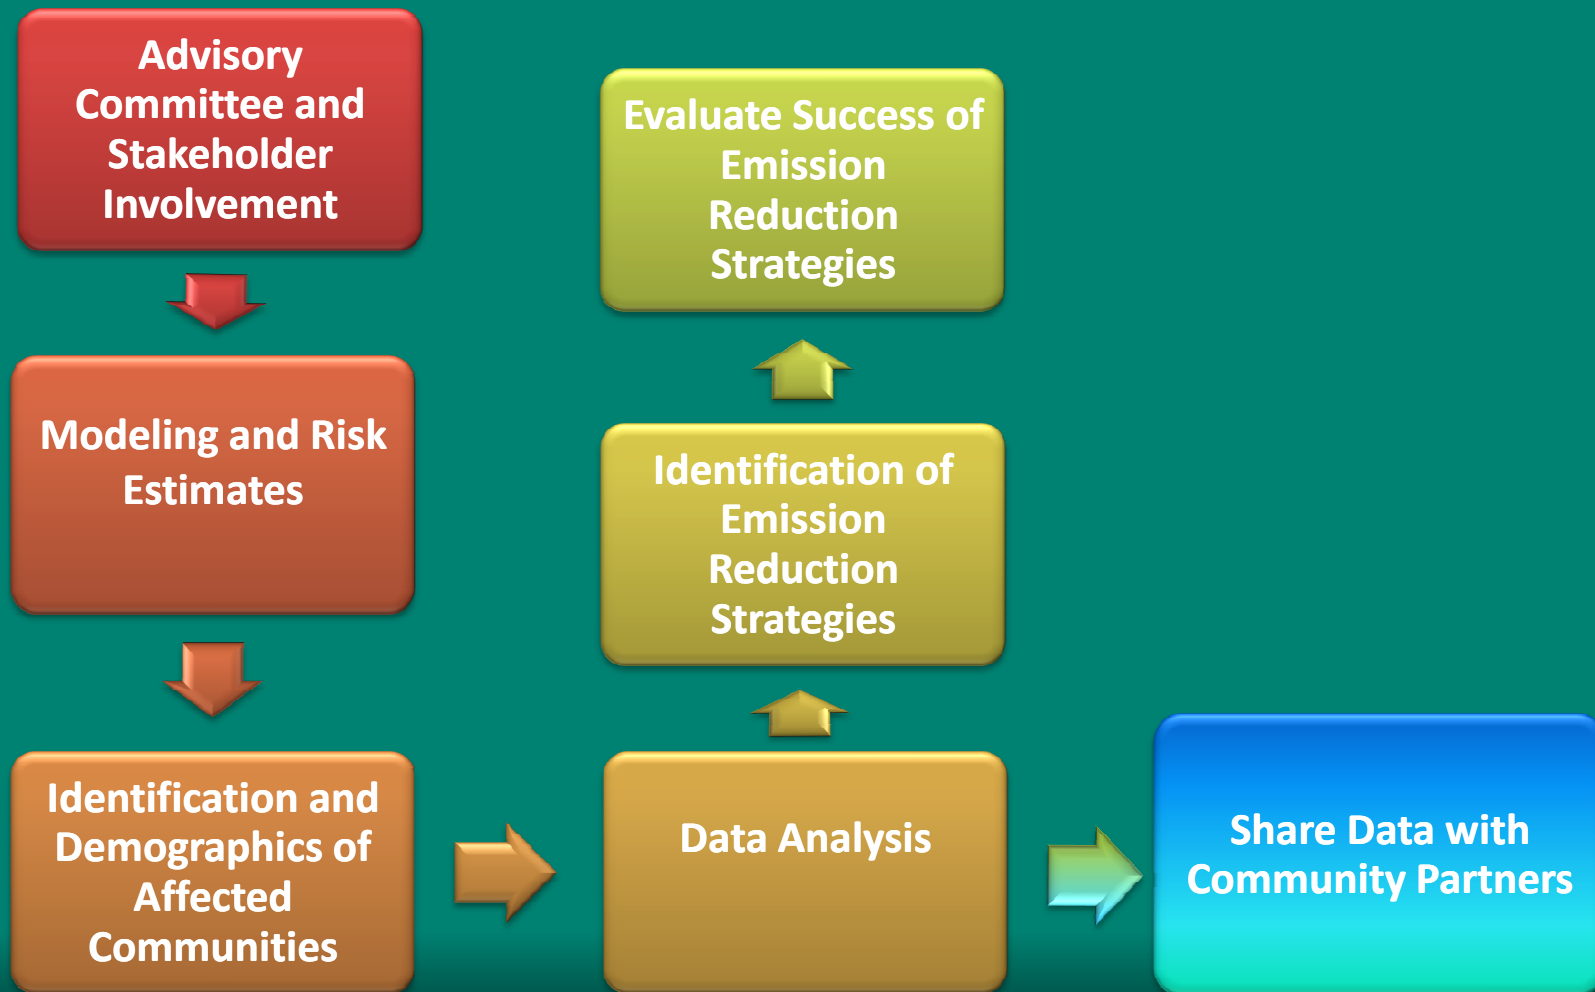

# Portland Air Toxics Solutions

## 2017 Modeled Pollutant Estimates

Pollutant	Top Source	Impact Area
<b>More than 10 times over benchmark</b>		
1,3 butadiene	Cars and trucks	Region wide/neighborhood
Benzene	Cars and trucks	Region wide/neighborhood
Diesel Particulate	Non road engines, cars and trucks	Region wide/neighborhood
15 PAH	Residential wood burning	Region wide
Naphthalene	Residential wood burning	Region wide/neighborhood
Cadmium	Industry	Neighborhood
Formaldehyde	Chemical formation in atmosphere	Region wide
Acrolein	Chemical formation in atmosphere	Region wide/neighborhood
<b>Between 1 and 10 times over benchmark</b>		
Arsenic	Cars and trucks	Region wide/neighborhood
Manganese	Industry	Neighborhood
Nickel	Industry	Neighborhood
Chromium VI	Cars and trucks	Region wide/neighborhood
Dichlorobenzene	Solvents and pesticides	Region wide/neighborhood
Acetaldehyde	Chemical formation in atmosphere	Region wide

# Portland Air Toxics Solutions EJ Analysis

## Summary of Multivariate Regression Analysis

Disproportionate impact from all sources:  
 Higher → Lower

Disproportionate impact by source category:  
 Higher ↓ Lower

Hispanic/Latino	Asian	African American/Black	Below Poverty
Residential Wood Burning	Cars and Trucks	Commercial Solvent and Fuel Use	Cars and Trucks
Construction and Non Road Engines	Construction and Non Road Engines	Construction and Non Road Engines	Commercial Solvent and Fuel Use
On-Road Mobile	Residential Wood Burning		Permitted Industrial Facilities
Commercial Solvent and Fuel Use	Commercial Solvent and Fuel Use		

# Portland Air Toxics Solutions

## EJ Focused Emission Reduction Strategies

Hispanic/Latino	Asian	African American/Black	Below Poverty
Residential Wood Burning	Cars and Trucks	Commercial Solvent and Fuel Use	Cars and Trucks
15-PAH	Benzene Diesel Particulate 1,3 Butadiene	Naphthalene Benzene Formaldehyde	Benzene Diesel Particulate 1,3 Butadiene

### Potential Use of Community EJ Analysis in Permitting

**Community:** Awareness of local risk drivers, better opportunity to participate

**Facility:** Awareness of local risk drivers and potentially affected populations

**DEQ:** Provide meaningful opportunity for involvement, inform about risk issues
